

# California OES Weather Threat Briefing

Thursday, February 7, 2019  
9:00 AM PST

Day 1: Well below normal temperatures expected  
across the Coastal and Inland Regions.

---

**National Weather Service**  
*Western Region Headquarters  
Regional Operations Center  
Salt Lake City, UT*

# **WEATHER KEY POINTS**

**02/07/19 - 02/13/19**

## **Thursday**

- Below normal temperatures will continue across much of the state today.
- Frost and Freeze impacts possible with impacts to agriculture interests in the Central Valley, and inland valleys in Coastal Central and Northern CA this morning.

## **Friday-Tuesday**

- A couple of storms system will once again impact the state starting Friday and continue into early next week
  - Valley rain and mountain snow will return. Snow levels will lower to 1500 feet.
  - A couple of cold weather systems are forecast to bring significant snowfall to the Sierras Nevada mountains over the Weekend and to many foothill locations.
  - Breezy or windy conditions will return as well for White-out conditions at times especially Saturday night and early Sunday

## **Wednesday**

- A more significant weather system moving onshore.
  - Potential for debris scar issues with this system across the state.
